

"I tried to use and configure other blogging management software but found that **Joomla!** integrates perfectly with other content within my site. It's easy to setup, easy to manage and easy to blog."

Joomla! is simple to use, but can easily add advanced functionality to your site.

Joomla!'s powerful, yet user-friendly system will bring your sites all the features you want, without the frustration that you don't want.

So what are you waiting for? See a live demo or download your own copy at **Joomla.org**, and see why open source really does matter.

Joomla! for
Personal Sites
and Blogs

Joomla! has tons of extensions that you can integrate into your site. Add a forum, shoutbox, podcast, newsletter, and much more to your site easily.

“This was my first full production website with **Joomla!**. I love it!”

Whether you are building your first site or you are an experienced webmaster, **Joomla!** will help you to create your site exactly how you want it -- without having to sacrifice features.

Along with all the extensions and themes, **Joomla!** has a massive amount of documentation if you ever need help.

Also, **Joomla!**'s official forum is a great resource for asking questions, finding tips and tricks to improve the way you use **Joomla!**, staying informed about new versions of **Joomla!**, and much more.
