

Site Mambot: Edit [Load Module Positions]

Last Updated Monday, 09 April 2007

Type:

com_mambots /editA

Access:

menu=>Mambots=>Site Mambots->Edit;

User Level:

Administrator; Super Administrator

Screenshot:

Site Mambot:

Load Module Positions

Description:

Mambot Type: content

File Name: mosloadposition.php

This Mambot facilitates the loading of Module positions within Content Items in the Front-end of the web site. This functionality does not extend to the descriptions in Sections or Categories.

The syntax used to implement the function is {mosloadposition position_name}.

NOTE: Further clarity is being obtained on this Mambot and it will be updated as soon as possible.

Toolbar:

Save: Click Save to save any changes made during the current editing session, and return to the Mambot Manager screen.

Apply: Click Apply to save any changes made so far in the current session, but remain in the Mambot screen to continue editing. Once the editing session is complete click Save as above.

Close: Click Close at any point to end the current editing session and return to the Mambot Manager screen. Any changes made since the session commenced, or since the last time Apply was clicked, will be lost.

Help: Click the Help icon at any time to view this Help Screen.

Details:

Name: Enter a name for the Mambot. The name is used by the Mambot Manager to identify it in its display list of all Mambots.

Folder: Select one of the five Mambot classifications, from the drop down list, that this Mambot is to be assigned to. Once selected, and the Mambot is saved for the first time, this field is not editable.

Mambot file: Enter the name of the .php file, within the joomla_root/mambots directory, that this Mambot is created from.

Mambot Order: This function allows the position for this Mambot in the order of all Mambots to be set within the Mambot Manager. This function becomes active once a Mambot is saved for the first time. By default the new Mambot will be added to the end of the order for that particular classification (Folder) of Mambot.

Select the position where this Mambot is required to be placed, from the drop down list of all installed Mambots. The current Mambot at that position will shift down a position upon saving. The order can also be changed directly within the Mambot Manager.

Access Level: Identify which User Group level can view this Mambot. Select from Public, Registered, or Special. See [User Access Levels](#) for further details on these.

Published: Select No or Yes to set whether the Mambot is Published.

Description:

Enter a description of the Mambot that explains its function in the open text field. The text will be displayed within the Administrator Back-end only and is for future reference purposes.

Parameters:

Style: Select the style option for the handling of the Module, within the Content Item, from the drop down list.

Choose from:

- Wrapped by Table Column
- Wrapped by Table Horizontal
- Wrapped by Divs
- Wrapped by Multiple Divs
- No Wrapping - Raw Output

NOTE: Further clarity is being obtained on this Mambot and it will be updated as soon as possible.
