

Information & Changelog: 11 July 2007

Last Updated Wednesday, 11 July 2007

Hi all,

What's this about?

As many of you will have noticed we are in the process of updating the Administration Section of the Help Portal for Joomla! version 1.0.x. to bring it bang up to date for Joomla! 1.0.12.

Well the good news is most of the work has now been completed. There are now 177 Help Screens. More than 1600

A dump file pack is being prepared for the Help Screens for use by Translation Partners. This is nearing completion.

Items

Marked ****NEW**** have been completed apart from the inevitable typo errors and minor changes that always come to light after the release - I suppose bug fixes.

We are concentrating on the Help Screens for now and will be releasing these in other formats for both development and offline printing use. Note: There may be a size issue with regard the actual number of pages that the planned PDF file will comprise making it impractical to produce a worthwhile document, this is currently under review.

The online Administrator Manual will be updated to 1.0.12 in due course.

The User Manual will now also be updated to 1.0.12 as well. Work has now commenced on this too.

The User Manual 1.0.12 will be available online for the first time in its current format.

Change Log:

11 July 2007 Updated MySQL password comments in Global Configuration->database tab

4 July 2007 Amended Content Item and Static Content Item for inclusion of definitions of Details - thanks dingdong

15 Apr 2007 Amended Section Manager and other Manager Screens

17 Mar 2007 Updated GeSHi Mambot page following suggestion from pikepace

15 Mar 2007 The Help Screens for 1.0.12 are now to all intents and purposes completed apart from minor fixes as they are found. A dump file has now been released and is available on the Joomla! Code site primarily for the Translation Partners. Thanks to Brad Baker and Jean-Marie Simonet for their assistance in this final part of the jigsaw.

Work will continue to complete the HTML file pack in due course.

Key references completely updated to help with access from future 1.0.12 release. This will be from the Menu bar Help button in the Administrator - individual screens will still point to their legacy pages but we have now included a Related Information section to every page that links to other Help Screens on the same subject, plus other resources.

Site section of Help Screens completed - final proof reading in process.

Existing document links checked and (most) broken links fixed - let us know if you find any that aren't.

Template designed and being implemented for the layout of all screens.

New Help Screens created to ensure as complete a coverage of the Administrator screens as possible.

Existing Help Screens moved to their new homes.

New Help Screen Sections Created based on the Administrator Menu Bar.

Updating project commenced November 2006.

NOTE: If you have any comments or suggestions regarding this Help screen then please post them in the [Suggestions, Modifications, and Corrections](#) forum in the [User Documentation Work Group](#).

Thank you!

The User Documentation Team
